Photography

We are all aware of the wide range of devices including mobile telephones which have photographic and filming capabilities. This enables the capture of both static and moving images. It should also be acknowledged that most images taken in a Swim England setting are appropriate and taken in good faith. However, images of children and adults can be misused, and sharing images widely without consent may betray the confidence or identity of a child or adult, which could present a risk of harm to that individual if common sense procedures are not followed.

Parents and carers of participants under the age of eighteen who wish to take images are requested to focus on their own children as much as reasonably possible and to avoid including other children in images, particularly if those images are being shared with family and friends or through social media platforms. Whilst it is acknowledged that parents/carers wish to celebrate the achievements of their own children when taking part in aquatic events, it should be recognised and respected that other parents/carers may not wish for their child's image to be taken and shared in this way.

Swim England encourages all spectators and participants at Swim England events to make themselves familiar with the photography and filming arrangements for the event and be vigilant during that event.

Should individuals have any concerns about photography or filming at the event, this should be brought to the immediate attention of a member of the Swim England North-West Artistic Swimming Committee present.

Safeguarding

In order to ensure the safety of all swimmers and as per Swim England's Wavepower guidance - the use of mobile phones or other photographic devices is prohibited in the changing rooms. Team Managers must make sure your club is aware of and adheres to this rule.

A designated Welfare Lead will be in attendance at all Swim England North-West Regional Competitions. This person is responsible for ensuring that all safeguarding principles are adhered to, and any welfare/safeguarding concerns are managed appropriately. The Welfare Officer along with an appropriate volunteer will complete regular/random checks of the changing rooms to ensure that mobile phones or other photographic devices are not being used in restricted areas. In the event of any safeguarding concerns being raised during an event, they will be the first point of contact.

Protests

Swim England/World Aquatics Penalties will apply.

Protests may be made and dealt with as detailed in Swim England Laws.
