Swim England Photography Guidance

Parents and carers of participants under the age of 18 who wish to take images are requested to focus on their own children as much as reasonably possible and to avoid including other children in images, particularly if those images are being shared with family and friends through social media platforms. Whilst it is acknowledged that parents/carers wish to celebrate the achievements of their own children when taking part in aquatic events, it should be recognised and respected that other parents/carers may not wish for their child's image to be taken and shared in this way.

Swim England encourages all spectators and participants at Swim England events to make themselves familiar with the photography and filming arrangements for the event and be vigilant during the event.

Please note that there will be a professional photographer at the event. If, for any reason, you do not wish your child to be photographed you need to contact the event organiser prior to the event so that they can advise the photographer.

THE USE OF FLASH PHOTOGRAPHY IS STRICTLY FORBIDDEN.

Anyone found to be using flash equipment will be requested to leave the Competition. Flash photography not only distracts the swimmers but could pose a safety hazard if a swimmer became disorientated or in an extreme case suffered a seizure.

Should individuals have any concerns about photography or filming at the event, this should be brought to the immediate attention of the Swim England Event Staff present.

RESTRICTED AREA ACCESS

Access to the changing room areas or poolside is strictly restricted to those wearing an approved wristband – bands are non-transferable.

Anyone found in any restricted area, without an approved band will be asked to leave the venue.
